### MARCH, 1855—MARCH, 1916.

March from Mars is well named. The month of this name just past was much like that of 1855. Both were characterized by lack of moisture and high winds, which caused much damage by fire. I do not recall so much damage in '55 in town and city but forest fires were almost of daily occurrence. That was long before the advent of the stock law, and there was more fencing and timber than now which made accidental fires more dangerous. And then nearly every farmer had annually a new ground of logs and brush to burn, and about March was the time for attending to this work. Dr. Thomas Thompson of your town owned lands now owned by Mr. Ed Stone and others on the Pomaria road and on one of those March days an accidental fire burned an out house and mule belonging to the doctor. Mr. James Maffett, one mile farther east, had the fence around his field burned. As the cattle ran at large then his neighbors turned out next day and split and hauled rails and enclosed the field again. The writer was a little lad then and his school path was parallel to a long stretch of rail fence. The fence was all right a March morning but when he returned home that evening it was a long bed of live coals. The late Jas. Blalock was wont to say that there was no such thing as an accidental fire but that it was all the result of carelessness; and I reckon he was more than half right.

### CURIOUS FACTS ABOUT 4043 MILLIONAIRES.

American Magazine.

"Recently I have been investigating the lives of 4,043 American millionaires," says Dr. Russell H. Conwell in the April American Magazine. "All but twenty of them started life as poor boys, and all but forty of them have contributed largely to their communities. But alas! not one rich man's son out of seventeen dies rich."

### ROCK HILL MAKING PLANS FOR REUNION

Committees Active in Preparing for Reception of South Carolina Confederate Veterans.

The State.

Rock Hill, April 4.—Committees are active with the arrangements for the annual reunion of the South Carolina division, United Confederate Veterans, which will be held in this city almost daily and everything is being gotten in readiness for the event.

It is expected that more than 500 veterans will be here for the reunion, and the committees are doing all they can to provide a programme that will enable the vets to enjoy the occasion to the fullest extent. The commanders in various cities in the State are being communicated with, in an effort to ascertain as nearly as possible just how many veterans there will be from each camp in the State. The commanders are urged to furnish this information as early as possible, in order that the committees can know how many to expect.

The complete programme, so far as is possible to arrange in advance, will soon be ready.

### WHAT A WONDERFUL MOTHER YOU'D BE!

I saw you playing with a child  
You looked so sweet to me,  
It seems as tho' that's all you ought to do;  
You kissed it and caressed it  
And the whole world seemed to be  
A paradise for just that child and you.

You were so loving, sweetheart,  
So gentle and so kind,  
I could n' help but frame this picture in my mind;  
I can picture a babe on your knee  
While you are singing some sweet lullaby,  
And the picture that I frame, my dear,  
Seems to spell the name of mother, dear.

Now the picture just seemed so complete  
With a baby right there on your knee.

You're my sweetheart, that's true, but when I look at you  
What a wonderful mother you'd be.

(Instrumental interlude).

Now the picture just seemed so complete  
With a baby right there on your knee.

You're my sweetheart, that's true, but when I look at you  
What a wonderful mother you'd be.

### OFTEN CHEAPER TO "BUILD" MEN THAN TO FIRE THEM ..

In the April American Magazine is an interview with Marry G. Peterman who hires thousands of men each year for the United Cigar Stores company. In it Mr. Peterman quotes George J. Whelan, founder of the company, as saying:

"If a man under you isn't just right—if he is improperly adjusted—tear him down and build him over: don't throw him away. Every person is likely to be a specialist in something. Your man's specialty may be extremely valuable to this company. Discover it; develop it; adjust it. I believe that a porter who keeps his floors spotless and his windows shining means more to the world than the 'average' sales manager."

"This principle, applied, has produced splendid results. Fair-to-middling bookkeepers have been transmuted into strong executives, indifferent clerks into brilliant statesmen; men who have failed in law, medicine, and sundry branches of trade here have found their specialty."

### INDORSE PROPOSAL OF

JOHN L. McLAURIN

Farmers of Lee, Mem'rs of Secret Association, 'a' for Extra Session.

The late.

Indorsement of the suggestion made by John L. McLaurin, State warehouse commissioner, that an extra session of the general assembly be called to consider the fire insurance situation, is contained in resolutions adopted by the Farmers' Secret association of Lee county. Edwin Wilson, chairman of the executive committee of the association, yesterday sent a copy of the resolutions to Mr. McLaurin.

The resolutions follow:

"Whereas, the withdrawal of 64 old line fire insurance companies from the State of South Carolina has caused a serious condition to obtain throughout the State, and especially in the country districts; and

"Whereas, the State warehouse commissioner, John L. McLaurin, has called upon the governor to convene an extraordinary session of the legislature of South Carolina;

"Therefore, we, the Farmers' Secret association of Lee county, in regular quarterly session assembled, do hereby indorse the recommendation of the State warehouse commissioner and pledge our support in the fight to free the people of this State from the condition into which the actions of these unscrupulous insurance companies have placed us."

The resolutions are signed by J. A. Josey, secretary.

### MUST PROTECT FRUIT.

Order Requires Cover for Foodstuffs.

Fruits and other foodstuffs will not be allowed to be exposed on any sidewalk or alley in the city of Columbia, according to an order given yesterday by the city board of health to the inspectors. The order is in conformity to a State law and will become effective April 15.

The law reads:

"All dealers in foodstuffs, such as milk, meat, fish, vegetables of whatever kind and variety, whether to be eaten raw or cooked, fruits, candies, cakes, confections, etc., shall not expose or exhibit the same on any sidewalk or alley in the State of South Carolina; but all such food intended for human consumption and offered for sale shall at all times be kept free from contamination by dust, dirt, flies, insects, cats, dogs, or other domestic animals."

### THIS MAN PROVED THE VALUE OF ADVERTISING

In the April American Magazine is the story of a very wealthy man who made his fortune through an advertising scheme. In front of a small store in New York City a crowd was looking at a novel article exhibited in the window. The advertising man introduced himself to the proprietor of the store and said:

"You have something here that is worth a fortune if advertised. I want to advertise it."

"I don't believe much in advertising," said the man.

"I'll make you a proposition. If I triple the sales of the article in three months will you give me half interest in the business?"

After an hour's talk the other consented. Inside of five days he called his new partner up on the phone and begged him to stop as he was sold out ten times over the capacity of his plant. The advertising man took a half interest in the business, rented a five story building, advertised for workers—and inside of a month had increased the output of the article forty-fold and extended his field to other cities.
